

To whom it may concern,

I know Mr. Ali Ahmadi since 2020 as a Bachelor student at Ferdowsi University of Mashhad at Electrical Engineering Department. He has passed "Introduction to Biomedical Engineering & Bioengineering" with me as a 10% top students. The course had many research based home-works, due to the pandemic situation. According to them I found him a hard-working student, interested in the subject, and with a very good perseverance. Moreover, he presented a conference paper titled: "Brain-IoT based Emotion Recognition System" which characterized him as a good presenter.

Additionally, he is a smart polite student.

Consequently, it is a great pleasure for me to strongly recommend him as a graduate student. I am sure that he can complete his graduate studies with a proper performance in courses, and with a qualified excellent dissertation as well.

Sincerely,
Zahra Ghanbari, Ph. D.
